

MLP12C
ICT TOOL OF THE
WEEK

<http://agoogleaday.com/#game=started>

“A google a day” is a search based challenge that poses students a question that they must find the answer to! Sounds easy, it’s not! Students must read and interpret the question properly, identify key information, and use certain Google app’s (Google Search, News, Earth, Maps, etc...) to locate their answer. Students are timed and are rewarded points based on the speed of their correct response. Aimed at upper primary, secondary students, it can also be a great tool to teach students effective search techniques when using Google Search to locate information quicker. Great for a warm up’s in literacy!
